Languages

- Hindi
- English

Profile

I am a graduate with a strong passion for web design and development. My expertise lies in creating responsive, visually appealing websites using modern web technologies like HTML, CSS, JavaScript, and Bootstrap. I am driven by the challenge of turning creative concepts into functional, user-friendly digital solutions. With a foundation in both design principles and front-end development, I am eager to apply my skills to real-world projects and continuously improve as a developer.

Projects

Clothes Website, Ecommerce website

Developed a responsive multi-page clothing e-commerce website using HTML, CSS, JS, and Bootstrap. Integrated Owl Carousel, FontAwesome, product filters, and responsive UI with smooth navigation for a modern shopping experience.

Food Website page, One page website

Built a fully responsive food website using HTML, CSS, JS, Bootstrap, and jQuery with image galleries, fancy box, popups, sliders, menu filters, and smooth scrolling, ensuring cross-browser compatibility and modern UI.

hotel booking website

Developed a full-featured hotel booking website using PHP, MySQL, Bootstrap, and JS with user authentication, multi-room booking cart, real-time availability, secure payment confirmation, and an admin panel for managing rooms, users, bookings, and payments.
